

# Solid State Lighting

Create the perfect mood with solid state lighting

**Philips Aurelle™ Rechargeable LED Candle** combines innovative LED technology with a decorative vase to create a safe and distinctive alternative to conventional candles.

- Real candle flicker: warm and soothing candle glow with no heat and no wax mess
- Attractive, frosted glass vase is available in four distinct shapes (round, square, tulip and triangle)
- Rechargeable: no batteries needed; each candle will last approximately 10 hours on a full charge
- Water-resistant and wind-proof light base; great for outdoor use

**Philips Aurelle™ LED Deck Lights** accentuate and beautify your outdoor living space with light. Each kit contains 10 easy-to-install LED light points, which can be used to highlight your deck's beauty or even add the safety of stair or pathway lighting. Once installed, the Deck Lights simply plug into an existing socket and are operated on a remote control—no hard wiring is necessary.

Each kit contains:

- 10 LED light points (available in blue or white)
- Remote control
- 60' of connection cable
- Cable connectors
- Water-proof junction box
- Detailed installation instructions
